

STABILIZERS

24170 Cartel Pro Gold short

24180 Cartel Pro Gold Long

Stabilizers will help you in balancing your bow and will help you to relax your bow arm. The Cartel stabilizers are setting new standards in this price category.

*Lengths: Short 8", 10", 12" Long 26", 28", 30"

24100 Black Sheep Carbon Short *Lengths: 8", 10", 12"

24130 Black Sheep Carbon Long

The Black Sheep stabilizers are made out of carbon fibres to achieve a good stiffness with high dampening qualities. Intermediate archers will find this an excellent choice that will help them to improve their shooting. Extreme value *Lengths: 26", 28" or 30"

24800 Win & Win Fomax Carbon Stabilizer Short

24820 Win & Win Fomax Carbon Stabilizer Long

24840 Win & Win Base Weight

24845 Win & Win Cap Weight

This stabilizer uses Royal Cross Carbon which is extremely light. It has very good vibration absorption due to a special material in the shaft. Excluding weights.

Lengths: Short 10", 11", 12" Long 26", 28", 30"

24300 AGF Carbon Short

24330 AGF Carbon Long

24340 AGF Repair Bushing

24345 AGF Middle Weight

24346 AGF Cap Weight

The AGF Carbon stabilizers may be the best sold carbon stabilizers in the history of archery. These stabilizers are designed to be used without the addition of T.F.C.'s, tapered design

*Lengths: Short 10" Long 26" or 30"

24500 Easton ACE Short

24530 Easton ACE Long

24547 Easton ACE SS Vari Weight

24548 Easton ACE SS Cap Weight

Very stiff stabilizer made from carbon with an aluminum inner core to increase strength and resistance to impacts. Available in a wide range of lengths. Excluding weights.

*Lengths: Short 9", 10", 11" Long 24", 29", 34"

24150 Black Sheep Balkan Multirod Short

24160 Black Sheep Balkan Multirod Long

Best value in multi-rod stabilizers. Weights can be added for better balance. *Lengths: Short 8", 10", 12" Long 26", 28", 30" Colors: Black, Black/white

24350 AGF Vibra Stop Short - Length: 12"

24360 AGF Vibra Stop Long Light - Lengths: 27", 30", 33", 36"

24370 AGF Vibra Stop Long Heavy - Lengths: 27", 30", 33", 36"

AGF's multi rod stabilizer made out of precisely machined components. Includes adjustable rubber damper. Colors: Black, Silver

24700 Beiter Centralizer Short with Endcap Blue

24705 Beiter Centralizer Short with Weight Adapter Blue

24720 Beiter Centralizer with 2 Tuners & Endcap Blue

24725 Beiter Centralizer with 2 Tuners & Weight Adapter Blue

24706 Beiter Centralizer Short with Weight Adapter Black & White

24726 Beiter Centralizer with 2 Tuners & Weight Adapter Black & White

24700 Beiter Centralizer Short with Endcap Blue

24701 Beiter Centralizer Short with Endcap Black & White

24720 Beiter Centralizer with 2 Tuners & Endcap Blue

24721 Beiter Centralizer with 2 Tuners & Endcap Black & White

24740 Beiter Centralizer with 3 Tuners & Endcap Blue

24741 Beiter Centralizer with 3 Tuners & Endcap Black & White

24760 Beiter Centralizer with 4 Tuners & Endcap Blue

24761 Beiter Centralizer with 4 Tuners & Endcap Black & White

24705 Beiter Centralizer Short with Weight Adapter Blue

24706 Beiter Centralizer Short with Weight Adapter Black & White

24725 Beiter Centralizer with 2 Tuners & Weight Adapter Blue

24726 Beiter Centralizer with 2 Tuners & Weight Adapter Black & White

24745 Beiter Centralizer with 3 Tuners & Weight Adapter Blue

24746 Beiter Centralizer with 3 Tuners & Weight Adapter Black & White

24765 Beiter Centralizer with 4 Tuners & Weight Adapter Blue

24766 Beiter Centralizer with 4 Tuners & Weight Adapter Black & White

Considered to be the best stabilizers currently available. These stabilizers are very popular as multi rod stabilizers offer very good dampening qualities without the use of additional T.F.C.'s. The Beiter Centralizers are among the lightest multi rod designs making them suitable for both recurve- and compound archers. *Lengths: Short 8", 10" 2 Tuners 26", 28", 30" 3 Tuners 33", 35", 37" 4 Tuners 41", 45"

STABILIZERS

1

25000 Black Sheep Compound

This is a large diameter stabilizer very suitable for compound bows. It is constructed from carbon that increases both strength and vibration reduction. You will not find a better compound stabilizer in this price range.

*Lengths: 28", 32"

2

3

25100 Spec. Arch. SuperStix Long

This multi rod stabilizer is very popular with compound archers. You can easily tune it to your preference to achieve optimum results. A quick disconnect is built in to the stabilizer so you can attach or change it with a single twist.

*Lengths: 24", 30", 36"

4

5

25250 Detowis 2000 Stabilizer 24"

25251 Detowis 2000 Stabilizer 30"

25252 Detowis 2000 Stabilizer 35"

The new Detowis stabilizers provide unsurpassed reduction of recoil, noise and vibrations in both horizontal and vertical axis. Features an adjustable sliding weight and is filled with patented material for superb shock absorption. A totally new design makes the tube extremely strong.

6

7

25180 Easton Black Max

Black Max is designed for today's high-energy dual and single-cam target compound bows. Black Max is currently used by world record holder Dave Cousins and many other competitive archers.

*Lengths 25", 30"

8

9

Beiter Centralizer

Beiter stabilizers are the most popular stabilizers with both recurve and compound archers. Compound archers are shooting Beiter stabilizers with lengths up to 45". Remember that you can always shorten your stabilizer.

See page 61.

10

11

25200 Kudlacek Five Star

The originator of multi rod stabilizers is still leading its class. Stiff, five rod stabilizer that is machined out of lightweight aluminum components. Best stabilizer for one-cam bows.

*Lengths: 24", 30", 36"

12

25930 Black Sheep Quick Disconnect

Best value in quick disconnects.
Strong aluminum construction.

25900 Kudlacek Quick Disconnect

Attach or change your stabilizer with a single twist. Will not vibrate loose, works with all stabilizers.

25905 Vibracheck Quick Disconnect

Best quality. Fits your Vibracheck or any other stabilizer.
*1", 1 1/4" *Black, silver

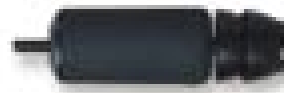

25580 Vibracheck Hydraulic Short 10"
25581 Vibracheck Hydraulic Short 8"
25582 Vibracheck Hydraulic Short 5"

25590 Vibracheck 3D Pro Hydraulic
Best dampening 3D stabilizer
-Length 10", dia. 1 1/4" - * Black, silver

25550 Golden Key Magnum
For the best in custom balance the Magnum comes with three removable 1 1/4" weights.

25573 Vibracheck Isolator Black 4 1/2"
Most popular length on V-bars with compound bows to balance bow.

28110 Cartel Damper stabilizer with weight
Great vibration reducing device that can act as a short and light stabilizer.

28160 Win & Win FDS
Fomax Damper Stabilizer Weight not included.

25578 Vibracheck Microflex 3"
Black stabilizer.

NEW

25574 Vibracheck Kickstand System
The 4 1/2" Isolater mounted on the one side not only offsets the weight of your sight and rest but also helps absorb vibrations.

NEW

26180 Vibracheck Offset Bracket Only
Enables you to balance your bow.

NEW

25576 Vibracheck V-Bar System
Can be mounted in machining holes of many compound bows.
